SUMMARY

Driven and adaptable Software Developer with a strong foundation in C#, JavaScript, and HTML, plus hands-on experience in website development and content management. Skilled in Git, GitHub, and Scrum fundamentals, with a strong interest in secure, high-impact environments like government or large corporations. Known for problem-solving, communication, and staying organized under pressure. Maintained a 3.6 GPA in a full-time Software Engineering program while managing two jobs—proving resilience and drive. Ready to take on challenging roles beyond web development.

WORK EXPERIENCE

ALDI - Assistant Store Manager (ASM)   **Mar 2021 - Present**

- Supported the Store Manager in overseeing daily store operations and team performance
- Managed and trained staff to ensure excellent customer service and adherence to store standards
- Contributed to sales and profitability growth by helping implement strategic plans
